

Product: Coir Cushions with Jute Support
Product Code: FV-Coirs-JCC

We offer Jute Packed **Rubberized Coir Cushions**. Coir fibers, the outer coating of skin that encircles the conch of coconut are transformed into sheets & are sprayed with natural latex thereafter these sheets are placed in an oven & finally pressed to obtain Rubberized coir pads. Once these pads are processed we convert the same into required cushions and later cover the same with Jute fabric for extra support and life.

Density & Coir-Latex compositions are the main parameters on which the quality, life, and properties of coir cushion depend. Higher the Density and Latex composition better are than the Coir Cushion properties and life whereas lower Density and Latex composition cause sagging and other quality issues.

In India, Coir product making is an important cottage industry. Indian coir products are exported to over 100 countries.

Advantages

1. It is a 100% natural product.
2. Allow good breathability and air circulation.
3. Flexible & strong.
4. Long Life

Specifications

Coir Pad Density: Ranging from 50 Kg/m³ to 120 kg/m³.

Composition: Any required Latex & Coir Combination.

Size & Thickness: As per requirement.

Supply: No supply constraint.

Packaging: A set of coir cushions in an LDPE sheet then in an HDPE bag.

Delivery: Within 15 days once an order is confirmed.

Application

Have Both Comfort and Technical Applications.

Coir Cushion with Jute Fabric Support

Coir Cushions with Jute Support

Customized Coir Cushions

About Foam Villa

Foam Villa, aspires to be the global epicenter for the Poly Urethane Foam industry along with its exhaustive list of associated chattels. Strengthened by a strong global network of PU Foam & allied Industry professionals, manufacturers, consultants, suppliers, and a dynamic team; the organization provides end-to-end solutions across every aspect of the business.

Why Foam Villa

- Expert Consultancy
- Global Tie-ups
- Competitive Pricing
- Quality Products & Services
- On-Time Delivery
- Business Transparency
