

**Product: 32 Density Soft Foam**

**Product Code: FV-In Rolls-32S**

32 Density Soft foams are Polyether-based foams having an open cell structure to offer extra softness, and comfort compared to normal or low-density foam grades. These foams find applications where premium quality products with extra cushioning properties are processed.

High Density gives extra life, and strength and increases the physical properties of these foams.

### Advantages

- A. Extra softness compared to Standard or Low-Density foam grades.
- B. Flexible, allowing good breathability and air circulation.
- C. Considered best for processing high-end mattresses and allied products.

### Specifications

**Density:** 32 Kg/m<sup>3</sup>

**Common Size Thickness:** Width up to 2 meters and thickness starting from 5 mm.

**Common Color:** White

**Supply:** No supply constraint.

**Packaging:** Each Roll is in an HM plastic sheet and then in an HDPE bag.

**Compressed Packaging:** Possible

**Delivery:** Within 5 days once the order is confirmed.

### Application

Mattress Overlay, Horse Saddle, Comfort Accessories.

Quilting Applications

Soft Foam in Rolls

Soft Foam Processing

### About Foam Villa

Foam Villa, aspires to be the global epicenter for the Poly Urethane Foam industry along with its exhaustive list of associated chattels. Strengthened by a strong global network of PU Foam & allied Industry professionals, manufacturers, consultants, suppliers, and a dynamic team; the organization provides end-to-end solutions across every aspect of the business.

### Why Foam Villa

- Expert Consultancy
- Global Tie-ups
- Competitive Pricing
- Quality Products & Services
- On-Time Delivery
- Business Transparency
