

**Product: 18 Density Soft Foam**  
**Product Code: FV-In Rolls-18S**

18 Density Soft foam offer great softness compared to normal foams. These are also called Low-Density Soft Foam as have low density compared to regular foam grades and still consider best for all quilting applications.

18 Density foams are denser than the 15 Density soft foam and therefore offer better softness, tensile, elongation, and tearing strength at the point of application. These foams are processed in roll form to offer fast processing on quilting machines.

**Advantages**

- A. Extra softness compared to Standard foam grades.
- B. Flexible, allowing good breathability and air circulation.
- C. Low Density offer economical solutions to various Industrial application.

**Specifications**

**Density:** 18 Kg/m<sup>3</sup>

**Common Size Thickness:** Width up to 2 meters and thickness starting from 2 mm.

**Common Color:** White

**Supply:** No supply constraint.

**Packaging:** Each Roll is in an HM plastic sheet and then in an HDPE bag.

**Compressed Packaging:** Possible

**Delivery:** Within 5 days once the order is confirmed.

**Application**

Quilting, Mattress Overlay, Comfort Accessories.

Quality Soft Foam in Rolls

Quilted Products

Quilting Machines

**About Foam Villa**

Foam Villa, aspires to be the global epicenter for the Poly Urethane Foam industry along with its exhaustive list of associated chattels. Strengthened by a strong global network of PU Foam & allied Industry professionals, manufacturers, consultants, suppliers, and a dynamic team; the organization provides end-to-end solutions across every aspect of the business.

**Why Foam Villa**

- Expert Consultancy
- Global Tie-ups
- Competitive Pricing
- Quality Products & Services
- On-Time Delivery
- Business Transparency
