

Product: 15 Density Glue Lamination Foam
Product Code: FV-In Rolls-15G

We offer **15 Density Glue Lamination Polyether foam** in rolls form in customized thickness, color, and width option as per specific customer and end application requirements. 15 Density Glue Lamination foam grades are Low-Density foams and therefore consider best for processing economical products.

These foams further contain quality additives to offer better Glue lamination properties and are considered best for Single/Double side & Multilayer glue lamination machines to meet a broad range of industrial & comfort applications. We process these foam through Looper with joint options at 30, 60, and 120 meters.

Advantages

- A. Economical.
- B. Offer good Glue lamination properties.
- C. Perfect for any type of Glue lamination.

Specifications

- Density:** 15 Kg/m³.
Common Thickness: 1.6 mm to any required.
Common Width: Starting from 1.30 meters up to 2 meters.
Common Colors: White, Grey, and Black.
Supply: No supply constraint.
Packaging: Each Roll is in an HM plastic sheet and then in an HDPE bag.
Compressed Packaging: Not Possible.
Delivery: Within 5 days once the order is confirmed.

Application

Processing a wide range of glue lamination products for end products like Shoes, Seat Covers, Underlay, and many more.
